DE Big Nite Goes Greek

By Judith Rasmusen

Dean Earl Williams presented its tenth annual formal buffet dance in the Student Union oflaying, March 9. Theme of this was "Sangartos," a Greek name for spring. As we entered the building, we were impressed by the wall decorations representing scenes from Greek mythology. Various bouquets of flowers and men were placed on pedestals. The Delta Epsilon girls were attired in long Greek dresses and their hair was arranged to resemble Greek friezes. Waitresses in their heads held trays of food. As we entered the building, our attention was directed to the floor show which consisted of skits, dances, and songs. At the end of the evening we asked the waitresses to work in the same frame for a door prize, a slide camera; then refreshments were served.

More Buildings On Green Planned

A Fine Arts building will be erected on the northwest corner of the Gallaudet campus, across the road from the Hearing and Speech Center. The Fine Arts building, to be of modern design, will be the Economics and Printing Department. The second floor will be taken over by the Art Department. Plans were completed by the architectural firm of Musselwhite and Detmol. The dorm will be let soon. The cost of the building, which has already been set aside, will be about $700,000. Construction is scheduled to begin this summer.

Little progress has been made in the field of education, with a building to be built behind Hall Memorial. They are currently in the process of hiring a building and the appropriation of construction money. Of the Federal funds, $100,000 may be used for the building. The dorm will be a vital part of the buildings completed.

The pre-school department of the Hearing and Speech Center will be moved into this building upon an addition to the Center is completed. To be built on the same campus is a wing for homes for the deaf, a facility which now exists, it will be, like the other school buildings here, a one story partially below ground level. Estimated at $500,100, the homes will be up for bids. It is likely that construction of the homes will begin this summer as the Fine Arts building.

No old buildings are to be torn down; funds are available for renovation of these structures, as seen in the case of the Fine Arts building.

Harvey-Coronel Elected Student Body President

Harvey J. Coronel, an 18-year-old junior from Philadelphia, was elected the incoming President of the Student Body Government at a S.B.G. gathering on Feb. 27. Coronel is the youngest President in the fifty year history of Gallaudet's student government.

Running on a platform emphasizing education and leadership, within S.B.G., Coronel defeated Edward T. Blackwelder, a student at the University of Pennsylvania, who ran as a "time-for-a-change" candidate on a first ballot vote of 177-73. Coronel received the largest vote of any student ever for S.B.G. President and so the 28 Student Body members will have a new leader to guide them this year.

Coronel said in his opening remarks that he was proud to have received the first ballot with 177 votes cast for him.

"I believe in running a clean campaign and that's what we have done," he stated.

Coronel is a member of the Debate Club and was a member of the Student Government Board (S.B.G.) for the past two years.

Deaf Represented At Senate Confab

Four Gallaudet teachers recently appeared before a Senate sub-committee hearing on legislation for the Youth Employment and Employment Bill to include the deaf in its proposed program.

Dr. Powrie V. Doctor, Dr. R. W. W. Prest, Dr. Harold J. Domich, and Mrs. Mildred R. Loubert of the Placement Center, were the four Gallaudet staff members who appeared for the deaf before Senator Joseph S. Clark's sub-committee on Education and Manpower, the Senate unicameral now studying the bill.

All young adults between the ages of 16 and 21 should be highly interested in this piece of legislation. It is designed to provide training for the unemployed in this age bracket. Two separate programs are involved: one is a Youth Conservation Corps, and the other is a Civilian Conservation Corps.

NSFD Campus

Chapter Suggested

Dr. David Peikoff, Alumni Representative, stressed the importance of the insurance program for the Gallaudet Alumni Fraternal Society of the Deaf as a speech before a S.B.G. meeting last week.

The Society was established to provide insurance for the deaf and it was pointed out by most carefully, he stated. The need of the old 60 years old saw the need for a Gallaudet chapter of the N.F.S.D. Such a unit would provide student training in the insurance program. A campus division would be created within the camp, and a special school division for deaf students who were considered to be 22, 23, 24 years of age. As a matter of sheet necessity for the deaf because no regular insurance company would accept deaf applicants who were considered to be 65 years of age. The existence of the N.F.S.D. has explored the problem that deaf people face, and this insurance is just pushing through people.

Dr. Peikoff also discussed the long-range need for the N.F.S.D. He said that there is a need for alumni, as students, and deaf people to work together.

The Society is needed to help the deaf students understand their rights.

All current G.Y.C. members may be considered for the post as President-elect, Professor Prentice, as possible to the President-elect. It was a close vote as the Finance and Manpower, the Senate unicameral now studying the bill.
